

Project Title: ThinkShare – Article Sharing & Voting Platform

Description:

A community website where users can write, share, and vote on articles.

Users can post original content or share links to interesting articles.

Other users can upvote, downvote, and comment, creating a positive, knowledge-sharing community.

It's like a mix between Reddit (for voting) and Medium (for writing).

User Stories:

1. As a user, I can sign up, log in, and log out.
2. As a user, I can create a new article (title, content, or link).
3. As a user, I can edit or delete my own articles.
4. As a user, I can see a list of all articles, sorted by votes or date.
5. As a user, I can upvote or downvote any article.
6. As a user, I can comment on an article to share my opinion.
7. As an admin, I can manage articles and comments.
